TERMS AND CONDITIONS

TERMS AND PRICES

Terms and payment on all orders are subject to credit approval. Prices and deliveries are F.O.B Fred Silver warehouse or as otherwise stated, and the risk of loss and damage shall pass to the buyer upon delivery to the carrier. Buyer shall pay Fred Silver the amount of any sales, use or any other local, state or federal taxes, which arise from the sale or delivery of the products. All prices, models, and material specs are subject to change or withdrawal without notice. Fred Silver is not responsible for any typographical error or misprint on pricing in this book.

CANCELLATIONS, CHANGES, ALTERATION OR RETURNS

Fred Silver may at its option, accept other returned products subject to a restocking charge for inspection and repackaging. The standard restocking charge is 25% with prior authorization.

SHIPPING AND DELIVERY

Due to the fragile nature of our products the customer/consignee must inspect materials for damage upon receipt of goods. Within 24-72 hours of delivery, unpack and inspect your shipment. Should you discover a concealed loss or damage, contact us immediately to start a claim with the freight carrier. Make every attempt to leave the containers and packing materials as they were when you first discovered the loss or damage and please have pictures of the damages available to support your claim. Please note that any damage claim made after delivery has been completed could result in the claim being voided by the freight carrier. For large LTL deliveries please notate on the bill of lading any damage upon receipt to facilitate a claim.

Installing damaged or broken material voids all claims for replacement and warranty. Do not install any chipped, cracked, or broken items as they may result in injury. Ketcham/Fred Silver will not be liable for any claims or replacement resulting in thereof.

Buyers receipt of any products delivered by Fred Silver shall be an unqualified acceptance of, and a waiver by buyer of any all claims with respect to, such products on the earliest to occur of (i) payment for the products or (ii) failure of Fred Silver to receive in writing of shortages in the products within 10 days of their delivery to buyer. Under no circumstances will Fred Silver be responsible for consequential or incidental damage arising out to or owing to any delay in delivery.

We reserve the right to change specifications, designs, prices and or discontinue products at any time without notice and without incurring obligation.

MIRROR SELECTION & APPLICATION INFORMATION

What are Convex Mirrors?

Curved glass, acrylic, or polycarbonate mirrors that give the viewer wide-angle vision to see around corners and blind spots.

Where are they used?

- Warehouses
- Airports
- Factories
- Parking Garages
- Offices
- Traffic Intersections
- Retail Stores
- Fulfillment Centers
- Hospitals

Where are they located?

- At blind intersections of aisles, corridors and driveways
- On loading docks
- Over aisles in retail stores

What are the benefits/savings?

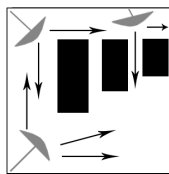

- Accidents cost millions of dollars in lost worker hours, medical bills and legal suits
- Theft in retail stores and other businesses cost billions of dollars in losses

Features of Convex Mirrors

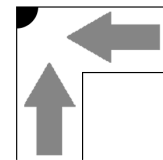

- Glass - Easy to clean (wet or dry), excellent clarity, will not scratch easily
- Acrylic - Easy to clean using wet cleaner such as spray wax, excellent clarity, break and shatter resistant
- Polycarbonate - Made to be indestructible and used in high security areas

Applications

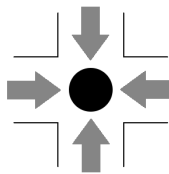

- In warehouses, hospitals and offices, place 1 to 2 feet above eye level
- In retail stores, place 1 to 2 above fixture/merchandise level and slant downward

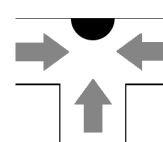

Corner & General Overview
 - Use Convex Mirror
 - Wall or Ceiling Mounted

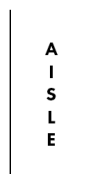

Corner or "L" Intersections
 - Use Convex or Quarter Dome Mirror
 - Wall or Ceiling Mounted

4-Way Intersections
 - Use Full Dome Mirror for 360 degree vision
 - Wall or Ceiling Mounted

3-Way or "T" Intersections
 - Use Half Dome Mirror for 180 degree vision
 - Wall or Ceiling Mounted

Retail Store Aisle
 - Place Convex or Dome Mirror at height and position so that image can be seen by store attendant over and behind merchandise

Sample Layout Using Convex & Dome Mirrors

PRODUCT CARE

At Fred Silver we want your mirror to maintain the same quality and functionality as the day it was installed. Following these cleaning instructions and using the approved cleaning solutions will keep your Fred Silver product bright and beautiful throughout its lifetime.

CLEANING YOUR CONVEX ACRYLIC AND POLYCARBONATE MIRROR

The best method in cleaning acrylic and polycarbonate mirrors is to use an over the counter furniture polish. A soft cloth like a diaper works the best and will not scratch. Spray the furniture polish on a soft cloth, then wipe until the polish is clear of any streaks.

****Never use a glass cleaner on acrylic or polycarbonate****

CLEANING YOUR GLASS MIRROR

Glass mirror cleaning is best when using water and vinegar or liquid glass cleaner (i.e., Windex). Spray cleaner on the mirror or cloth then wipe until dry. Repeat if necessary. If either type of mirror is heavy with dust, blow off dust using an air hose before cleaning. Dust WILL scratch the mirror.

FRED SILVER QUALITY GUARANTEE

Fred Silver products are guaranteed to be free of manufacturing defects from one year after date of purchase. Any products returned under this guarantee will be repaired or replaced at no charge. Fred Silver does not assume any liability for labor to remove or replace any products.

This warranty does not cover any products that have been subject to misuse, accident, negligence, improper repair/maintenance, or faulty installation.

Mirrors are guaranteed against silver spoilage for a period of 5 years after purchase date providing the product care instructions have been implemented.
